

All doubts merge in the Sacred Silence

So LONG ^{as} MIND IS THERE
QUESTIONS WILL CONTINUE TO
ARISE TILL WE REACH THAT
SACRED SILENCE where all
doubts MERGE.

In SANSKRIT, "I" is called
AHAM – you know WHY?
A is first letter + HA is last letter
in ALPHABET

THE ENTIRE WORLD + OBJECTS ~~are~~
can be named by VOCABULARIES WITHIN THE
RANGE OF A + HA (1st + last letter).
So THE WORLD IS CONTAINED IN AHAM.
In sleep there was no 'I' (AHAM).
When you got up the first thought was I +
from I – the entire world arose.

So long as mind is there questions will continue to arise till we reach that SACRED SILENCE where all doubts merge.

In Sanskrit, "I" is called AHAM – you know why?

A is the first letter and ha is the last letter in alphabet.

The entire world and objects can be named by vocabularies within the range of A and HA (1st and last letter). So the world is contained in AHAM. In sleep there was no 'I' (AHAM). When you got up the first thought was I and from I – the entire world arose.
